

PUBLIC COMMENTS

Attention DOE-Idaho,

We the following advise that the Department of Energy halt any further plans for the construction and operation of the Mixed Waste Plant (Advanced Mixed Waste Treatment Facility) until another Draft Environmental Impact Statement (DEIS) has been completed. This DEIS should answer all questions that were raised during the Public Scoping process and the DEIS Public Hearings. We do not necessarily oppose the incinerator, but until the science behind the crush and burn process can be proven safe for the people and the environment of Idaho, we urge you not to proceed.

Sincerely,

NAME (PLEASE PRINT) STREET ADDRESS CITY STATE ZIP
